Switch Control Server (SCS-01)

DATACOM SYSTEMS INC.

Optional 3-Unit Rack Mount

Use Datcom Systems' Switch Control Server and MANAgents™ software to control and configure your matrix switches with all your tools - regardless of platform or vendor. The open architecture design allows you to connect various tools to the same matrix switch and gain access through a single interface.

All Datacom Systems matrix switches are compatible with all vendor hardware and can be controlled by our free MANAgents™ switch control software, which allows you to control all of your matrix switches through a single interface regardless of what network appliances you choose to deploy.

- Provides a single point of control for your matrix switch

- Maintain one configuration for all your tools

- Platform independent control of your matrix switches and network devices

- Two COM ports to control up to eight switches

- IP addressable 10/100 port

TECHNICAL SPECIFICATIONS

Ports

One (1) RJ45 Port
Two (2) DB9 Serial (COM) Ports

Power Requirements

Two (2) (External AC Adapters Included)
Input: 100 - 240VAC, 50 - 60Hz, 0.4A - 0.2A
Output: 5VDC, 2A

Physical Dimensions (HxWxD)

1.07 x 5 x 5 in
2.7 x 12.7 x 12.7 cm

Weight

12 oz.
.34 kgs.

Environment

Operating Temperature: 0º to 40º C
Storage Temperatire: -30º to 65º C
Humidity: Less than 95º C Non-Condensing

Warranty

2-Year Limited Warranty
